

CHAPTER TWO.

Ohm's Law Of Manifestation.

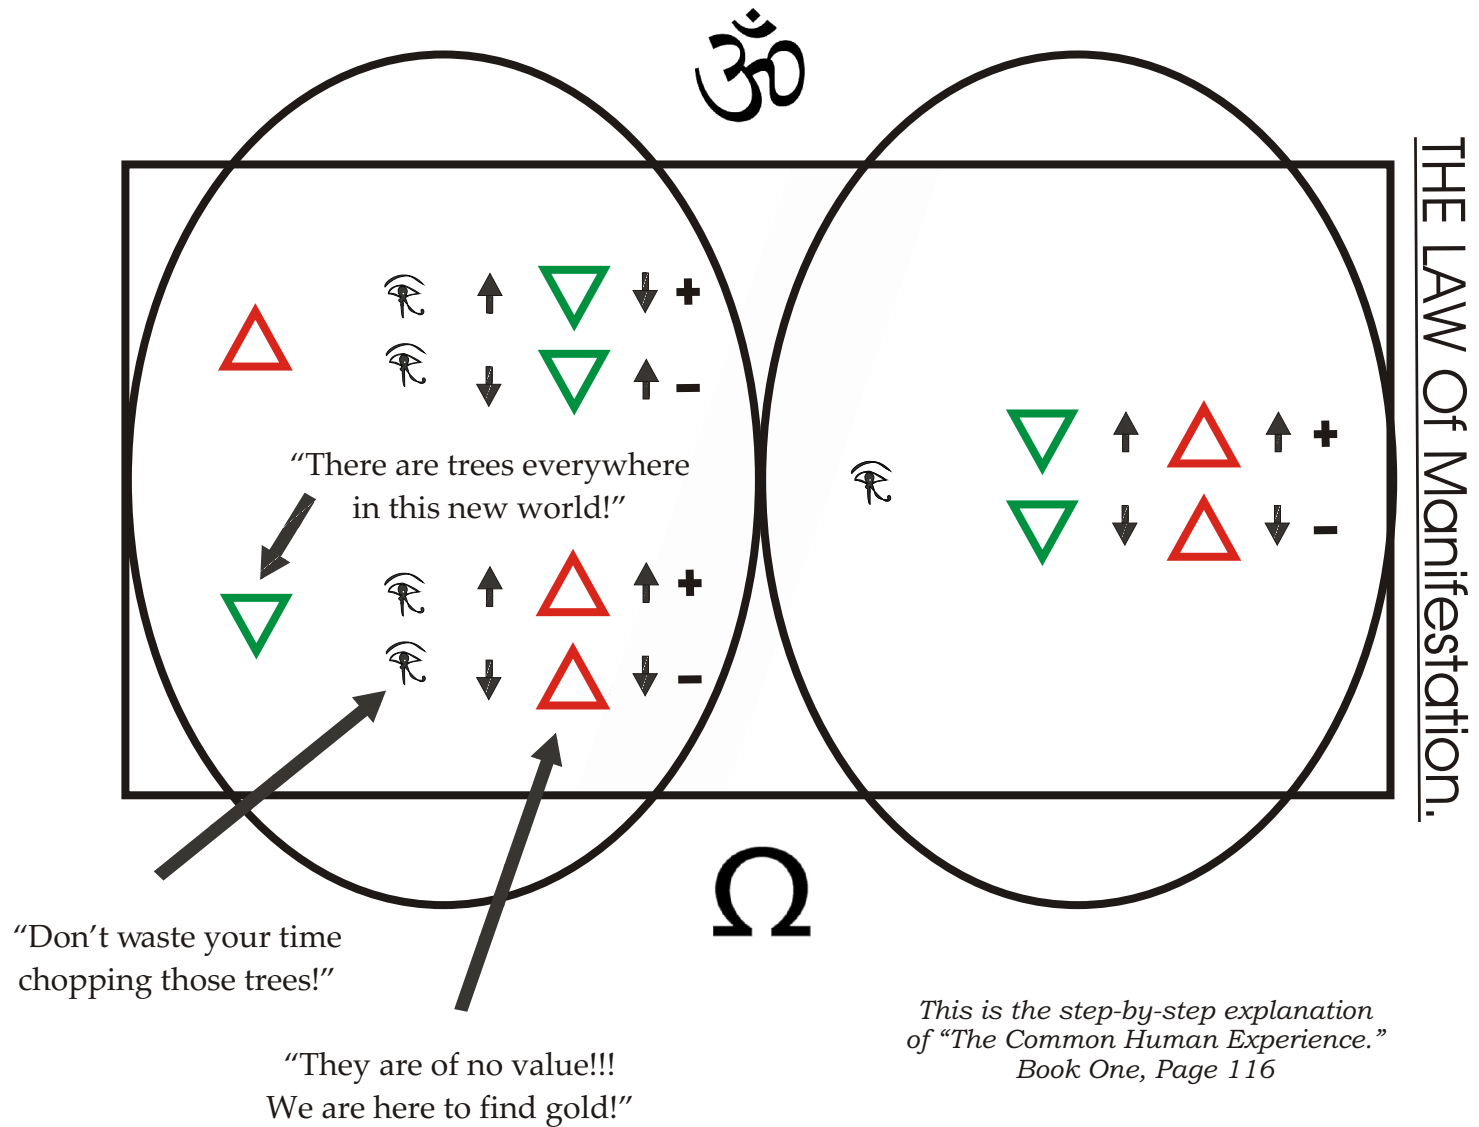

<u>Traditional Ohm's Law</u>	KEY	<u>Expanded Ohm's Law</u>
Potential Difference		Potential Difference
Current	 	Energy Released
Resistance		Resource

The Story.

If resources are everywhere
and less energy is being released
it is because you have not found
a way to utilize them.

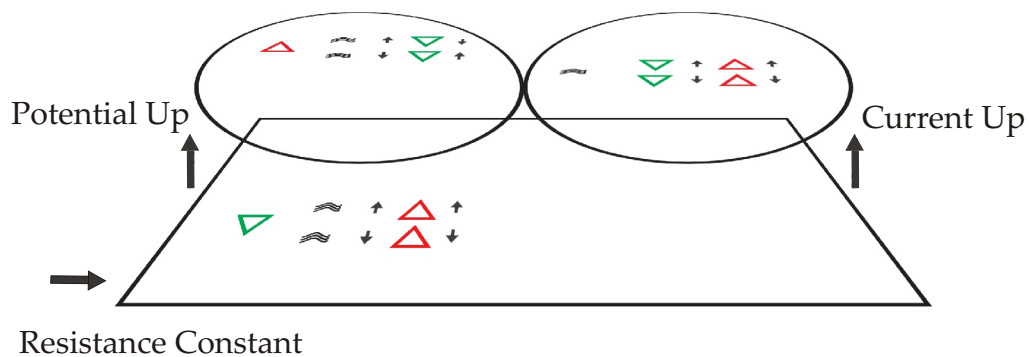

OHM's Guide.

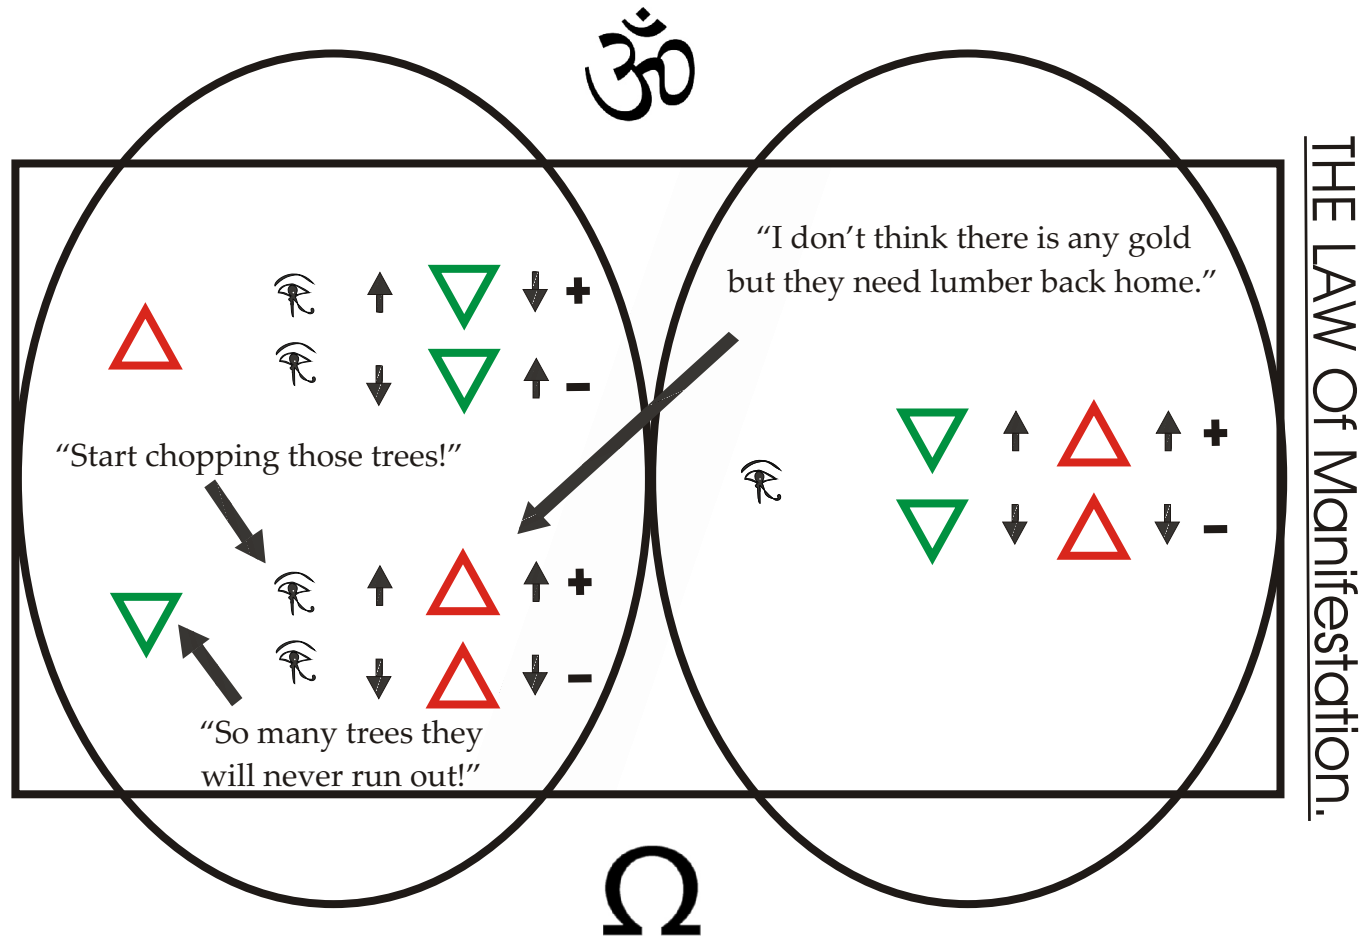

The Story.

If resources are everywhere
the more uses you find for them
the more energy will be released.

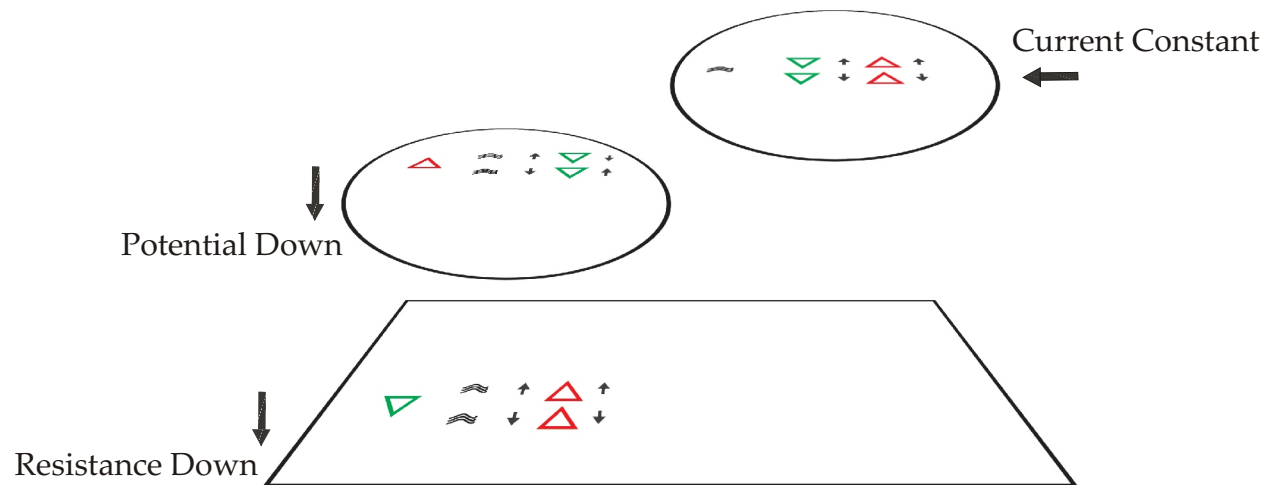

OHM's Guide.

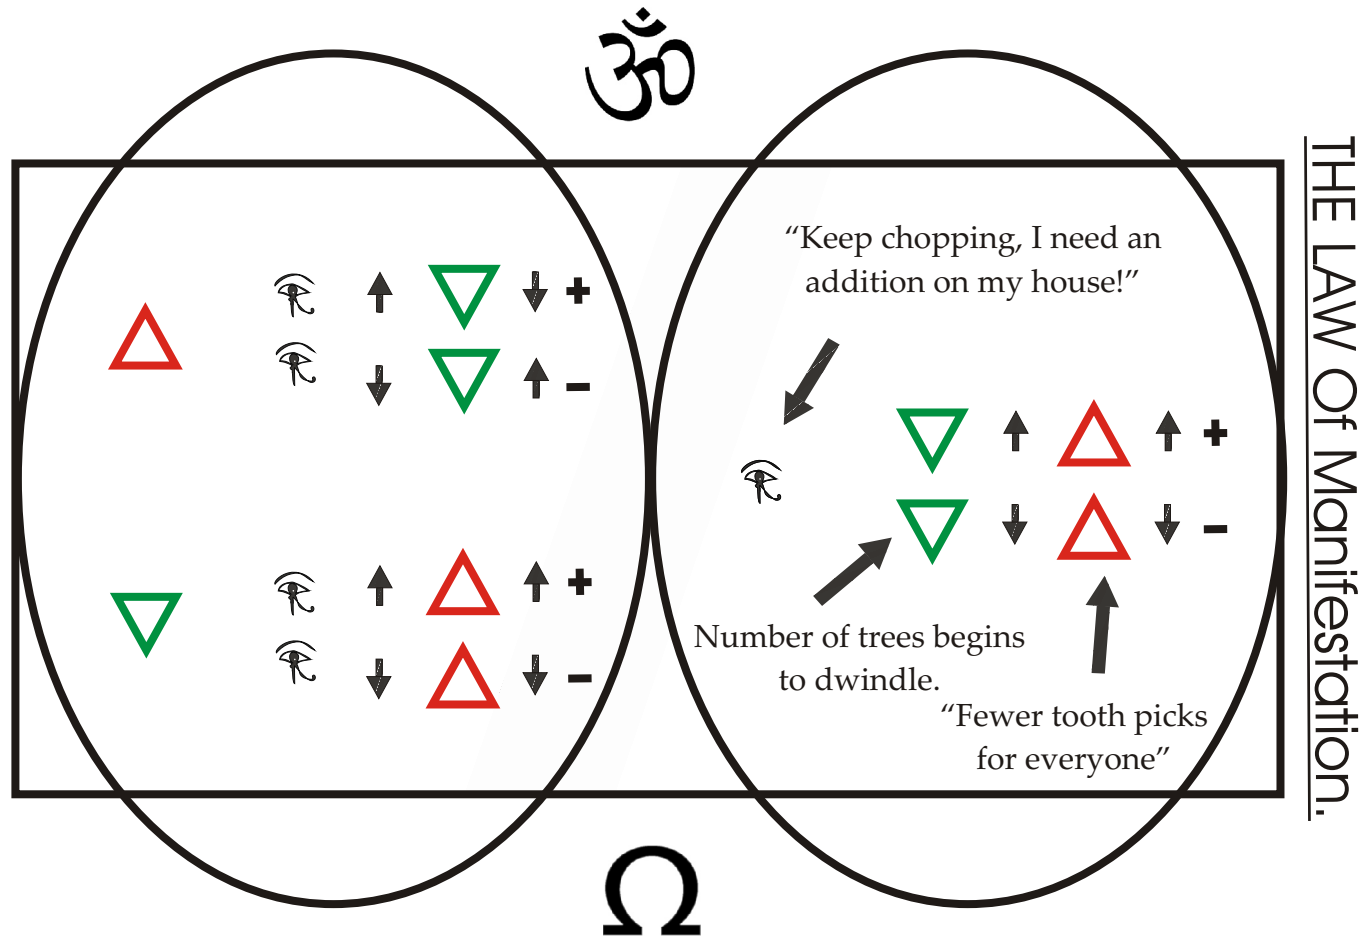

*This is the step-by-step explanation
of "The Common Human Experience."
Book One, Page 116*

The Story.

If available energy is being utilized all around you
 and resources are not renewable,
 as they run out
 some of the uses manifest from them
 will have to be abandoned.

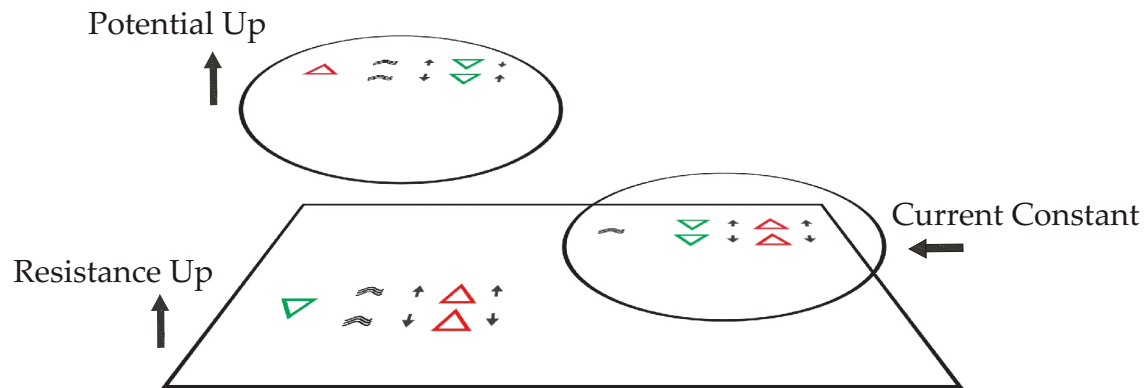

OHM's Guide.

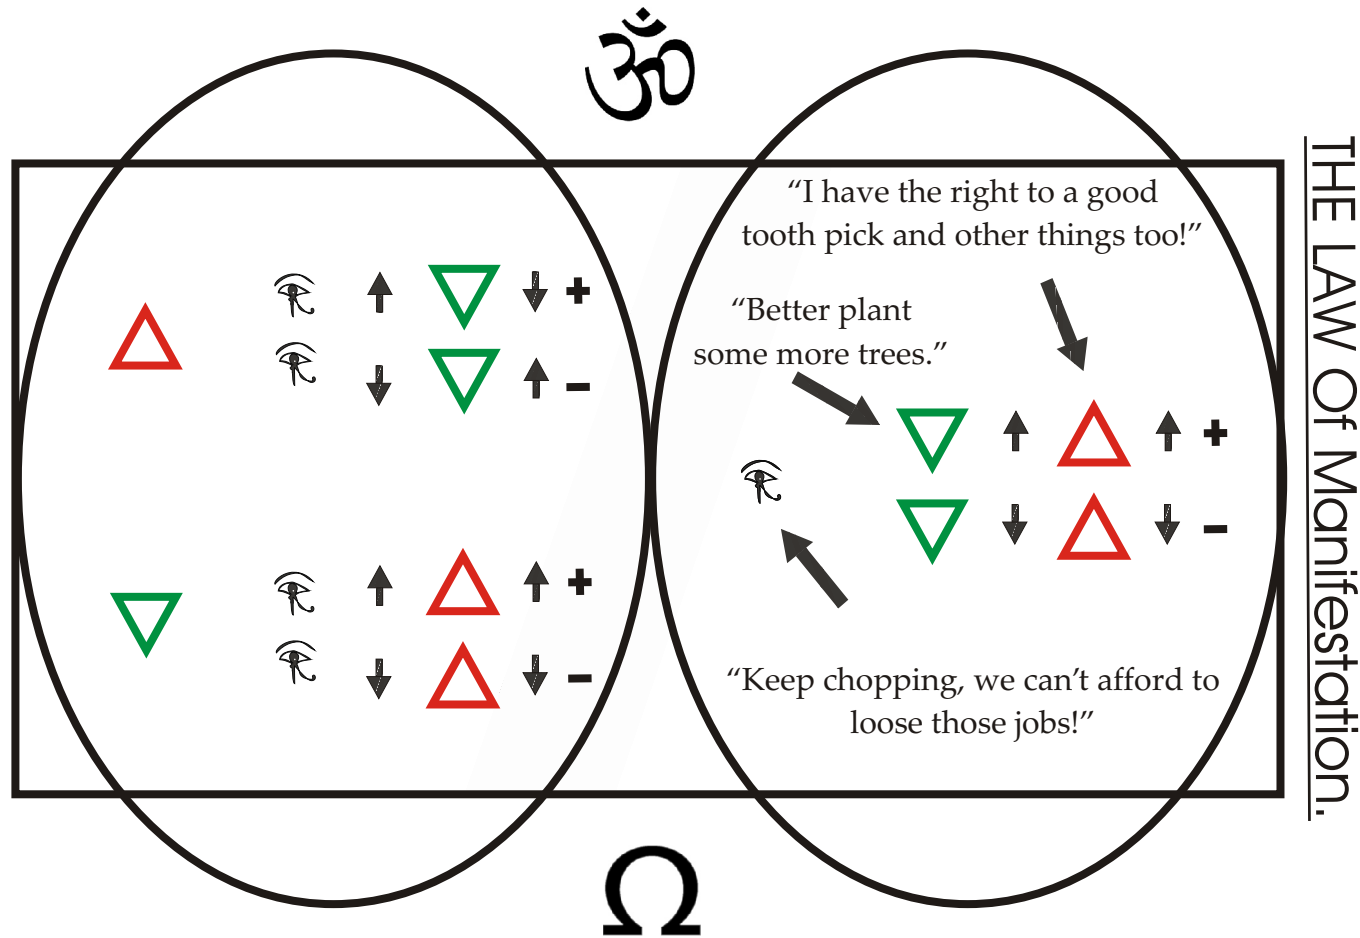

*This is the step-by-step explanation
of "The Common Human Experience."
Book One, Page 116*

The Story.

If available energy is being utilized all around you
the more resources you find
the more uses for them
you will manifest.

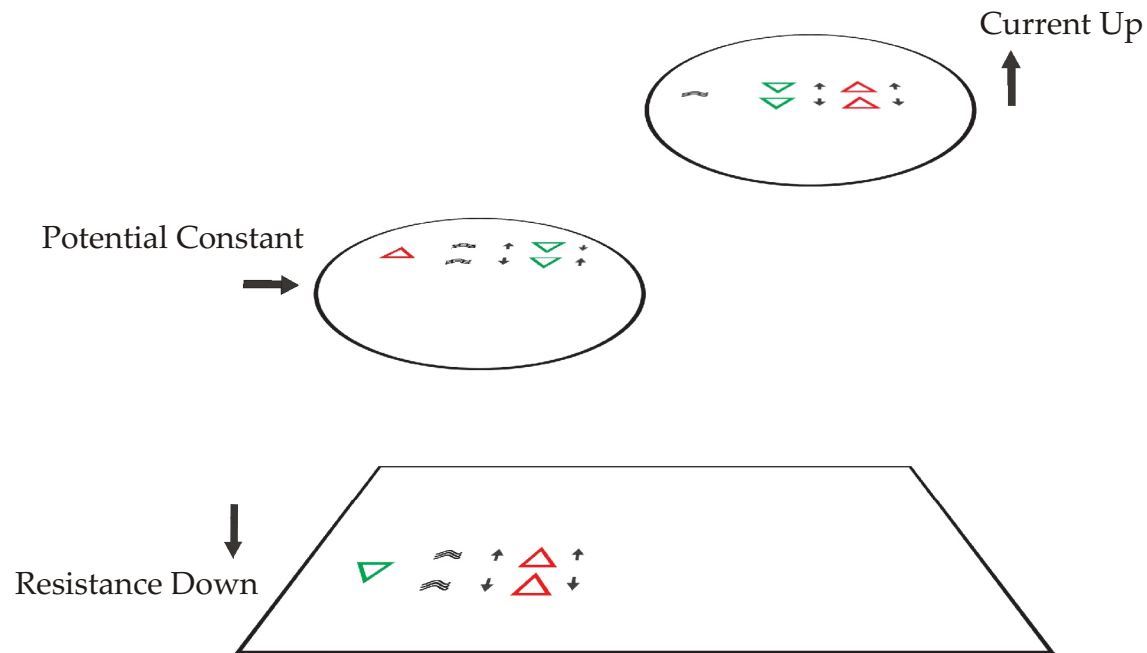

OHM's Guide.

*This is the step-by-step explanation
of "The Common Human Experience."
Book One, Page 116*

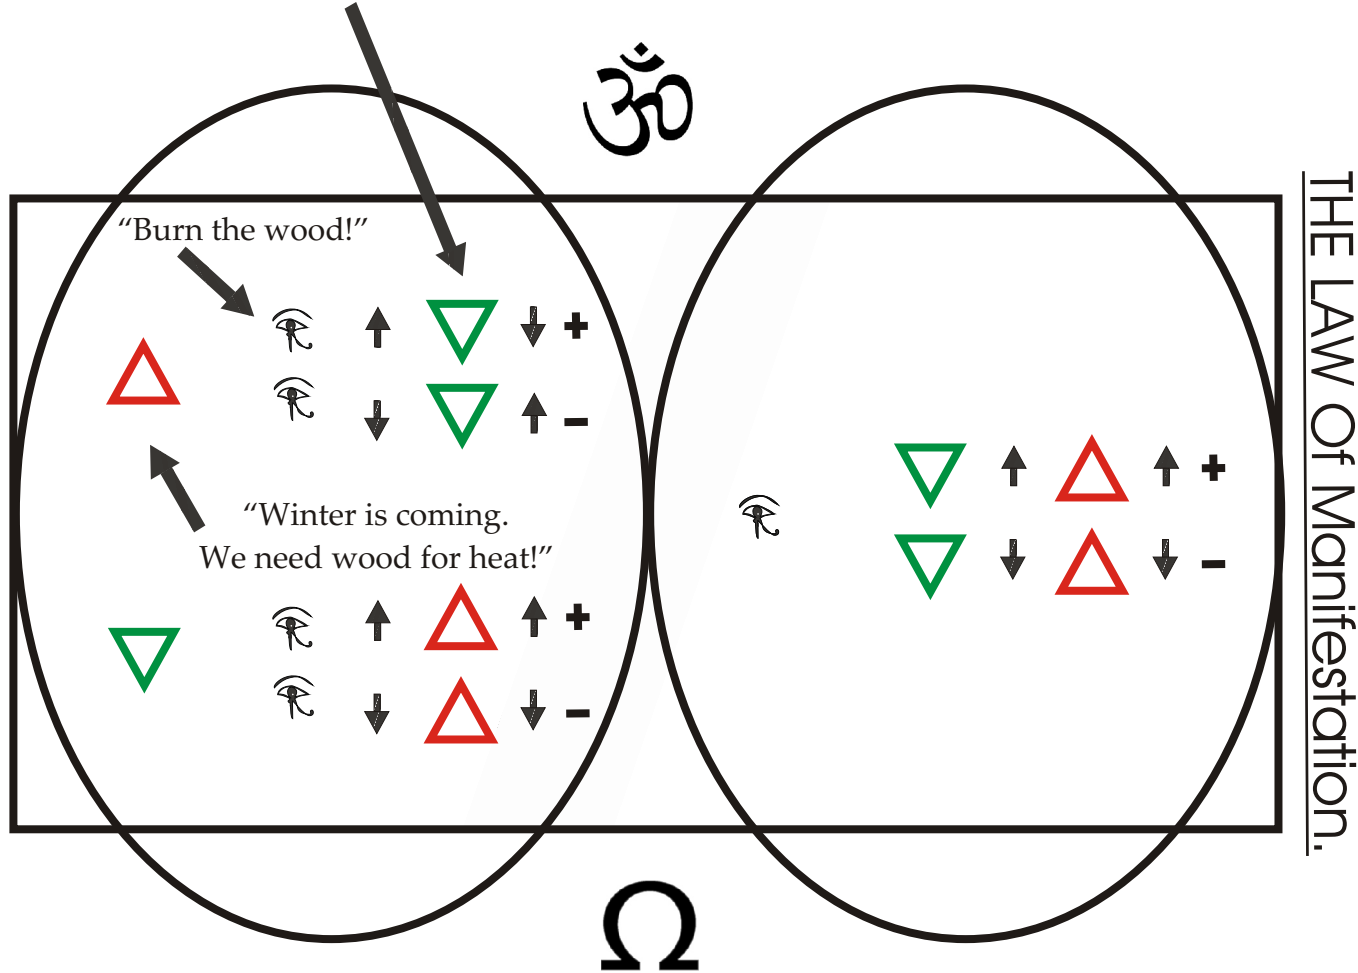

The Story.

Once uses for resources are established
as the energy is released,
or drawn from them,
the resource gets used up.

“Oh no, between all the products we demanded and the burning to survive all the wood is gone.”

OHM's Guide.

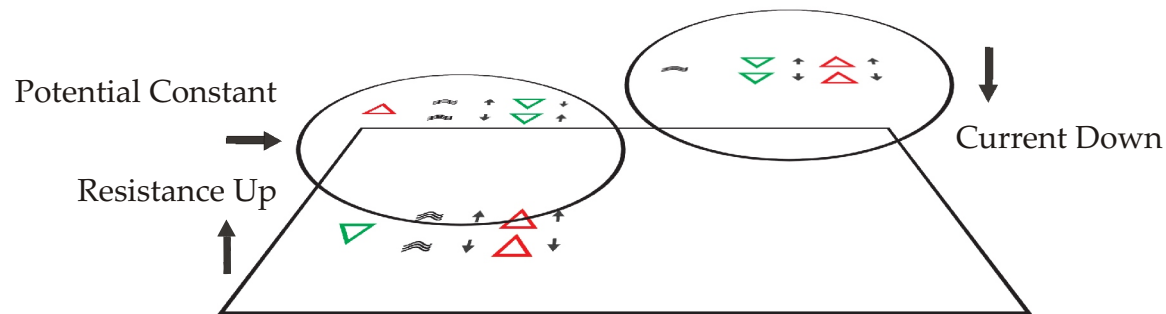

This is the step-by-step explanation of "The Common Human Experience." Book One, Page 116

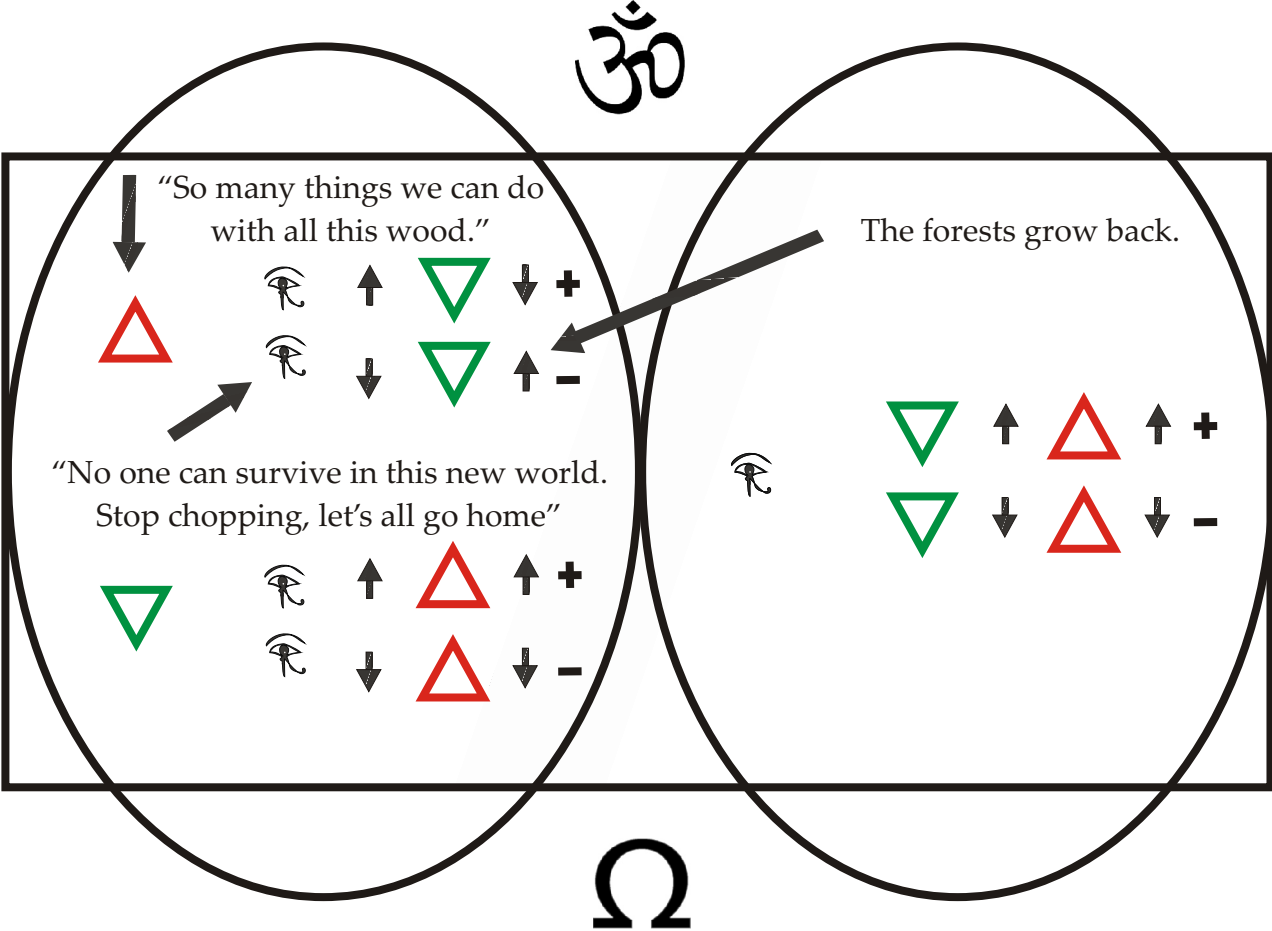

The Story.

Once a use for a resource is established,
 assuming the resource is renewable,
 if fewer people use it
 the more opportunity the resource has
 to replenish itself.

If not renewable
 life eventually gets harder
 when it runs out.

OHM's Guide.

This is the step-by-step explanation of “The Common Human Experience.” Book One, Page 116

First we make tools
to master our environment.

Next we modify our behavior and expectations
based on the success of our tools.

*The fewer resources that get transformed
through manifestation
the more in tune
with the environment
you remain.*
